

MAVEN CROWN

...The Innovative Thinker

Company Profile | Ogun State, Nigeria

WHO WE ARE

Maven Crown is a digital agency based in Ogun State, Nigeria, helping businesses, churches, schools, NGOs and individuals build a strong, professional presence online and on paper. We bring website development, software development, graphic design, branding, printing, video editing and training together under one team, so clients aren't juggling multiple vendors for a single project.

This document is a first-draft company profile — a starting point to personalize with your own voice, real figures and photography before sharing it with prospective clients.

VISION & MISSION

Vision

To be the digital partner organizations across Nigeria turn to first — for a website, a brand, or the next idea they haven't built yet.

Mission

To give businesses, churches, schools and NGOs the same quality of design and technology that much bigger budgets pay for, without the bigger price tag or the wait.

CORE VALUES

Innovative Thinking

We look for the approach that fits your budget and timeline, not just the default one.

Craft & Detail

Alignment, spacing and finishing matter, on screen and on the printed page.

Reliability

If we say it ships Friday, it ships Friday, especially around fixed event dates.

Partnership

Training and hand-off are part of the job, so you're never stuck waiting on us.

WHAT WE DO

Website Development

Any kind of website you need: business, church, school, hospital, hotel, NGO, eCommerce, real estate, banking, courier, booking systems and custom web applications.

Software Development

Custom software, management systems, POS systems, school systems, church systems and inventory systems.

Graphic Design

Logo design, flyers, posters, brochures, business cards, certificates, banners, roll-up banners, social media graphics, book covers and invitation cards.

Branding

Corporate identity, brand strategy, company profiles, letterheads, ID cards and packaging.

Printing

Flyers, books, calendars, t-shirts, stickers, invoice books, complimentary cards, banners and PVC cards.

Website & Software Training

Hands-on sessions so your team can update the website and run the software confidently, without us.

WHY CHOOSE MAVEN CROWN

- One team for web, software, design, video and print, no juggling vendors.
- Fast quote turnaround, even on tight event timelines.
- Training included, so your staff isn't dependent on us forever.
- Based in Ogun State, working with clients across Nigeria.
